^{5.} On 15 March, a troop train with 8 tanks, 10 armored scout cars, 10 trucks, and 2 signal trucks was observed at Guben. The train came from Frankfurt/Oder and went to Peitz. 10

SECRET/CONTROL - U.S. OFFICIALS ONLY

Comment. The troop trains probably carried components of the 21st Gds Mach 25X1 Div back to their home station in Halle; the two trains on 24 February 1954 probably were not dispatched from Weimer, but possibly from Ohrdruf or Kindel, while the trains on 25 February and 5 March came from the Lossa troop training grounds. On 7 March 1954, other contingents of the 21st Gds Mech Div probably moved from Ammendorf to Lossa.

	SECRET/CONTROL - U.S. OFFICIALS ONLY	0EV4
	-3-	25 X 1
2,	Comment. The Medewitz railroad station was used for loading and unloading of troops participating in previous large-scale fall maneuvers in the Dessau area. In the spring of 1954, however, troop movements in this area are reported	25X1
3.	Comment. The two troop trains possibly hauled components of the 8th Gds Mech Div to Koenigsbrueck for combat firing practice.	25X1
4.	Comment. An unconfirmed report indicated that, on 7 March 1954, tank units of the 6th Gds Tank Div were loaded at Wittenberg on four troop trains; and that two of these trains were dispatched to Brand.	25X1
5.	Comment. The Ruschmarsdorf and Makranstaedt railroad stations are used for loading of troops which are quartered at the Leipzig - Schoeneu (8241) barracks installation. As various units are stationed at this installation, the troop	25X1
6.	Comment. On 7 March 1954, loading of contingents of the 43rd Gds Army Arty Brig at Altenburg	25X1
	three troop trains with artillery from Altenburg to Chrdruf and Georgentha passing through Naumburg. The troop trains probably carried the army artillery units of the Eighth Gds Army to the Ohrdruf - Kindel area for field exercises which, on 11 March 1954, should have terminated.	1 25X1
7.	Comment. The troop trains carried components of the 25th Tank Div which, after termination of field exercises, returned to their home stations.	25X1
8.	Comment. The troop train probably carried a tank unit of the 1st Mech Div to combat firing practice in the Neuruppin area.	25 X 1
9.	Comment. The troop trains carried contingents to field exercises of the	25X1
	IX Mtz Rifle Corps: the trains classified F-3 are reported for the first time. A total of 16 to 18 troop trains dispatched from Senverin, Wismar and Hagenow to the Rheinsberg - Lindow area has so far been observed.	25 X 1
10	Comment. tank contingents of the 7th Gds Mech Div and components of the 32nd AAA Div were shipped to an undetermined destination on 15 March 1954. It is believed that these troops went to the Lieberose	25X1 25X1
	troop training grounds area for field exercise; and that the troop train reported in paragraph 5 also belonged to this movement.	25 X 1
